ASAS SERIES

WHOLE HOUSE HIGH-EFFICIENCY ELECTRONIC AIR CLEANER

The Amana[®] brand ASAS High-Efficiency Electronic Air Cleaner is designed to remove air contaminants down to 0.01 micron. The ASAS helps protect and prolong the operating efficiency of the heating and cooling equipment. An air-proving switch automatically cycles the air cleaner on and off with the system fan. The air-proving switch detects airflow and energizes the air cleaner. With a 4-stage air cleaning process, pre-filters, charging section, grounding plates, and carbon filters, ASAS air cleaners efficiently remove atmospheric and household particles.

Standard Features

- Lifetime Filtration System electronically removes air pollutants down to 0.01 micron
- Collecting cells constructed of heavy-gauge aluminum
- Pre-filters constructed of aluminum mesh
- Activated carbon filters help remove odors
- Air-proving switch cycles the air cleaner on/off with the system fan
- Equipped with a variable resistor (potentiometer) to adjust high-voltage output; Output is preset for optimum efficiency
- Removable power box contains the ON/OFF switch, performance indicator light, safety interlock switch, high-voltage power board, and air-proving switch

Cabinet Features

- Heavy-gauge galvanized steel cabinet allows for vertical or horizontal installation
- Powder-coat paint finish helps unit resist corrosion
- Dual indicator lights show unit operation at a glance
- Performance indicator light indicates high voltage transmitted to collecting cells
- Cell guides ensure proper placement of collecting cells in cabinet
